SUMMARY

Curious, dependable, and team-first. I grew up in Ethiopia, speak four languages, and am used to balancing school, work, and family responsibilities at the same time, so I stay calm when things get busy and I follow through on what I commit to. I enjoy listening to people, figuring out what they actually need, and turning messy information into something clear and useful.

EDUCATION

University of Maryland, College Park College Park, MD

B.S. Information Science | Minor: Technology Entrepreneurship & Corporate Innovation *GPA: 3.5*

Relevant Coursework: Database Design, Data Sources & Manipulation, Statistics, Technologies, Infrastructures & Architecture, UX Design, Cybersecurity

Certification: Microsoft Certified: Power BI Data Analyst Associate (in progress)

PROJECTS

Online Shopper Purchase Prediction Python, scikit-learn

- Built a Random Forest model to predict whether an online shopping session ends in a purchase, using browsing behavior data.

Retail Sales Staffing Forecast Python

- Forecasted weekly Walmart sales with a Random Forest model to help plan store staffing around busy and slow weeks.

NBA Four Factors Win Analysis R

- Used logistic regression on shooting, turnovers, rebounding, and free throws to measure which factors best predict wins.

AI Customer Review Summarizer Python, Ollama

- Built a tool that summarizes customer reviews with a locally run AI model, avoiding paid API costs.

EXPERIENCE

National League of Cities Washington, DC

Data Analyst Intern *Summer 2026*

- Interviewed stakeholders across departments to understand their reporting and business intelligence needs.
- Reviewed the organization's Power BI environment and identified opportunities to improve how reports are organized and used.
- Helped develop a data stewardship process to clarify ownership and quality of organizational data.
- Presented findings and recommendations to leadership in a final presentation.

Starbucks Maryland

Shift Leader *July 2025 – Present*

- Run shifts by assigning roles, managing breaks, and keeping service moving during peak hours.
- Handle cash management, opening/closing, and customer concerns, and coach new team members.

Behavioral Framework Maryland

Registered Behavior Technician (RBT) *Oct 2024 – 2026*

- Delivered one-on-one behavior support sessions for a caseload of about 3 clients following individualized treatment plans.
- Recorded session data in Rethink and shared progress with supervising BCBAs and families.

Byte Back Washington, DC

Operations Intern *Spring 2024*

- Supported the finance department with day-to-day operations, record keeping, and administrative tasks.

Additional Experience: Sales Representative, NYN Media (2022–2024); Leasing Office Assistant, Escher Apartments (2023); Cashier, Tropical Smoothie Cafe (2022–2024); Shift Supervisor, Bambu Desserts & Drinks (2021–2022)

LEADERSHIP & INVOLVEMENT

President, People for Tigray (P4T) 2024 – Present

- Lead fundraising that raises about $3,000 per semester to support two schools, and organize about 3 events each semester.

Internal Vice President, Ethiopian Eritrean Student Association (EESA) 2023 – Present

- Previously served as Treasurer (2023); co-organize cultural events, including a joint culture showcase.

Also: Peer Tutor, UMD Guided Study Sessions; Volunteer, MCPS ESOL Program; Member, Code: Black and Association for Women in Computing

SKILLS

Technical: Python (pandas, scikit-learn), R, SQL (MySQL), Excel, Power BI, GitHub
